Supt. U. S. Mint
Ph.a Pa.

I am trying to get some reliable information in relation to the gold ores & gold-mines of Virginia & North Carolina.

I have thought it probable that you might be able to refer me to ~~refer me to~~ some late geological, mineralogical or other reports, State or local, treating on the subject.- If you do know of such, I should esteem it a favor if you will give me the names of the authors or publishers, so that I can get them.

A friend tells of a report made by the late Prof. Lindeman, (then, I think, Supt of the Ph.a Mint) a number of years ago, in which he gave valuable facts about mines in the region roundabout Charlotte North Carolina. If this re port is extant, & it is possible to get a

RG104 E-1 Box 168

copy of it, I should particularly like to secure a copy, as I am told it contained just what I want to know. I do not know the date of the report, but my impression is that it was issued some 15 or 20 years ago. It is possible that there may be copies of it in your office, or in some of the book stores of your City. If you happen to know where a copy can be had I will oblige me by advising me. The favor will be highly appreciated. Either the Lindeman report or any other report or reports relating to that subject.

Very Respectfully
J. P. Hale

Supt. U.S. Mint
Pha., Pa.

I am trying to get some reliable information in relation to the gold ores & gold mines of Virginia & North Carolina.

I have thought it probable that you might be able to refer me to some late geological, mineralogical or other reports, state or local, treating on the subject. If you do know of such, I should esteem it a favor if you will give me the names of the authors or publishers, so that I can get them.

A friend tells of a report made by the late Prof. Linderman (there, I think, Supt. of the Phila. Mint) a number of years ago, in which he gave valuable facts about mines in the region round about Charlotte, North Carolina. If this report is extant, & it is possible to get a copy of it, I should particularly like to secure a copy, as I am told it contained just what I want to know. I do not know the date of the report, but my opinion is that it was issued some 15 or 20 years ago. It is possible that there may be copies of it in your Office, or in some of the book stores of your city. If you happen to know where a copy can be had & will oblige me by advising me the favor will be highly appreciated. Either the Linderman report or any other report or reports relating to that subject.

Very Respectfully,
J.P. Hale
